Windows on the World: 9/11's Forgotten Victims

Format: 1 x 47
Broadcaster: CNA

At the top of the North Tower, the famous restaurant Windows on the World was completely destroyed on

9/11. In time for the 25th anniversary in September 2026, this is the untold story of the Asian migrants who worked there. Reliving their memories of the day through reconstructions and tracing their families' lives since, this film reveals how 9/11 sparked a legacy of xenophobia still felt today.

Inside Unit 731: Japan's Secret Human Experiments

Format: 2 x 47
Broadcaster: CNA

Unit 731 was Japan's most secret WWII programme - a biological warfare unit experimenting on humans. Rare access to the last surviving unit member, survivors and declassified archives reveals the harm inflicted on Chinese, British and American victims, and the deal with the USA that hid these atrocities.

The Last Burma Star

Format: 1 x 45
Broadcaster: Sky History

Burma was one of the most brutal theatres of WWII and this documentary honours the Burmese soldiers who fought alongside British and Commonwealth forces. Join Major Levison Wood and historian Alex Bescoby as they pay tribute to the last surviving Burmese veterans and search for a 100-year-old soldier, to deliver his long-overdue Burma Star medal.

Chiang Kai-Shek: Shadow Across the Taiwan Strait

Format: 1 x 47
Broadcaster: CNA

As tensions with Beijing reach boiling point, the shadow of Taiwan's notorious former president, Chiang Kai-Shek, looms larger than ever. This award-winning special explores his divisive legacy and reveals how it continues to define both Taiwan's politics and China-Taiwan relations to this day.

Written In Stone

Format: 1 x 54
Broadcaster: RTI Mediaset

800 years on, there is still more to uncover about one of history's most influential saints: St Francis. Hidden within the walls of the Basilica of Assisi lie over 700 devotional graffiti messages from medieval friars, travellers and pilgrims. Studied now for the first time, these carvings reveal a more intimate portrait of the celebrated saint.

Windows on the World: 9/11's Forgotten Victims

Escape From Chernobyl: 48 Hours That Changed the World

Format: 1 x 47 / 1 x 68
Broadcaster: Channel 4, SBS

April 26th 1986 saw the most devastating nuclear disaster in history: the explosion of Reactor 4 at the Chernobyl Nuclear Power Plant. 40 years on, we count down the last 48 hours, from the failed safety test and Soviet cover-up, to the mass evacuation of 50,000 residents, never to return home.

Separation Declassified: 100 Days That Shocked the World

Format: 2 x 47
Broadcaster: CNA

After decades of secrecy, hundreds of classified files relating to Singapore's separation from Malaysia have finally been released. In this award-winning docu-thriller, covert deals, political ploys and assassination plots are revealed for the first time, as we count down the 100 days to independence.

Asia's Ancient Civilisations, Series 3

Format: 4 x 47 (all series: 12 x 47)
Broadcaster: CNA

In this award-winning franchise, historian Peter Lee returns to uncover the secrets of Asia's ancient sea kingdoms. From Indonesia's mighty Srivijaya empire and Vietnam's diverse Champa Kingdom, to the Philippines' Islamic Sultanate of Sulu and Sri Lanka's powerful Buddhist Anuradhapura Kingdom, we explore the rise and fall of these empires.

Weird Britain, Series 3

Format: 12 x 45 (all series: 37 x 45 + 1 x 90)
Broadcaster: A+E Networks

Uncover Britain's most iconic and bizarre mysteries, myths and legends. We venture to weird and wild Wales, the spookiest corners of Scotland, bewitched Buckinghamshire and wacky Warwickshire in search of ghosts, shipwrecks and witchcraft. Finally, join host Andy McGrath in historic Tintagel, Cornwall, to investigate the legend of King Arthur.

Escape From Chernobyl: 48 Hours That Changed the World

Digging for Britain, Series 13

Format: 6 x 60 (all series: 65 x 60)
Broadcaster: BBC

Alice Roberts returns to uncover more archaeological treasures from the most exciting digs in the UK. Their finds reveal startling truths about medieval murders, Roman pets, whiskey and a historic Scottish massacre. In this series, the team excavates cemeteries, bathhouses and even finds the lost estate of England's last Anglo-Saxon King.

Si Thep: Ancient Civilisation of the Sun God

Format: 1 x 52 (4K)
Broadcaster: Thai PBS

Si Thep was once a major city-state; a multi-theistic place where residents worshipped a Hindu Sun God whose sculptures are represented there more than at any other site in Thailand. With state-of-the-art CGI, expert input and archaeological finds, uncover the ancient secrets of this sun god city-state.

The Bondi Terror Attack: One Year On

Format: 1 x 60 / 1 x 90
Broadcaster: SBS

For the first anniversary of the Bondi Beach massacre in December, this stirring documentary reckons with the worst terror attack in Australia's

history. Told by the survivors, victims' families, first responders and everyday heroes who helped put a stop to the violence, this film plunges viewers into the chaos, carnage and emotion of the attack, dissecting the wave of antisemitism rising across Australia - and the world - in the lead up.

Walk the Line: ICE Nation

Format: 1 x 58 / 2 x 47
Broadcaster: CNA

In the wake of ongoing ICE raids across the US, millions of immigrants are now seeing their American Dream turn into a nightmare. The team behind the multi-award-winning *Walk the Line* returns to investigate the realities of living as an immigrant in America today, including the Chinese asylum seekers who risked it all to make it into the country.

Myanmar: The Lost Five Years

Format: 1 x 47
Broadcaster: CNA

Since the military coup of 1st February 2021, Myanmar has been devastated by a renewed civil war, with over 90,000 people killed. Rare frontline footage and extraordinary testimony from journalists and civilians expose the devastating human impact of this catastrophic event, revealing a history and present shaped by struggle, resistance and hope.

The Theft

Format: 1 x 59 / 1 x 84
Broadcaster: TVO

The Ghazni marbles are 12th-century sculpted panels looted from Afghanistan, which now sit scattered across Western museums. But who do they really belong to and can they ever go home? With Afghanistan's museums operating under the Taliban's destructive rule, this film bridges past and present to ask whether restitution is even possible.

Trade Secret: The Polar Bear Market

Format: 1 x 100 / 2 x 50 (4K)
Broadcaster: Arte, SBS, NHK

This award-winning investigation from Executive Producer Adam McKay (*Succession*) delves into the underground trade in polar bear fur. Filmed across nine countries, including Greenland, Canada and Norway, this unflinching exposé raises urgent questions about how we protect our most vulnerable species.

Trump and the Tech Giants

Format: 1 x 58
Broadcaster: ARD

Under President Trump's administration, business, technology and politics are converging as never before. Key tech power-brokers, including Elon

Musk, Peter Thiel, Mark Zuckerberg and Sam Altman, have cultivated close ties with the White House, but this is about more than just politics, power and data centres. Driven by deeply libertarian ideas, how will this emerging alliance reshape the political landscape, not just in the US, but globally?

Fleeing Putin's Poison

Format: 1 x 48
Broadcaster: YLE

Poisonings are an alleged staple of Russia's arsenal against dissenters living abroad and have triggered some of the most high-profile diplomatic crises of recent years. This film follows investigative journalists as they expose Putin's venomous crimes and follow a trail of supposed poisonings to uncover the truth and reveal the perpetrators.

One Orphan Every Hour

Format: 2 x 47
Broadcaster: CNA

More South Korean children have been adopted by international families than from any other country, but why? An award-winning investigation into the country's historic adoption programme reveals a decades-long scandal, where human rights violations, falsified documents and lack of consent tore Korean families apart. Now, adoptees search for the truth.

USA: The War on Gender

Format: 1 x 48
Broadcaster: YLE

Under President Trump, the power of the Christian right has surged in the US and one of their main targets has been LGBTQ+ rights. Meet queer organisers, lawmakers and religious leaders in Tennessee, the Southern state where drag performances and gender-affirming healthcare are under attack and Pride events take place under armed guard.

The American Abortion War

Format: 1 x 48
Broadcaster: YLE

Abortion rights are under threat in the US. Texas - where the practice is banned - is on the frontline of this debate, which is tearing the nation apart. As clinics relocate to nearby New Mexico, this film follows radical anti-abortion activists looking to prohibit the crossing of state lines for the procedure, and the women and doctors fighting back.

India's Love Detectives

Format: 1 x 47
Broadcaster: CNA

Arranged marriages remain widespread in India and the pressure to find the perfect partner is amplifying. We meet desperate families who have turned to 'Love Auditors' - detectives hired to investigate the hard truths behind claims of love. In high-stakes relationship investigations, they dig up dirt, fight sextortion and uncover secret double lives.

The Ozempic Effect: Beyond the Waistline

Format: 1 x 44 / 1 x 54
Broadcaster: CBC

From its development in the early 2010s to becoming the best-selling prescription of all time, this documentary investigates the meteoric rise of the most ubiquitous weight loss drug: Ozempic. Discover how it is transforming society, upending the food industry and revolutionising treatment for addiction.

For the Culture, Series 2

Format: 6 x 48 (all series: 12 x 48)
Broadcaster: CBC

This award-winning series returns to ask urgent questions about the issues facing Black communities around the world today. Host Amanda Parris uncovers

how colonial legacies, capitalism and systemic racism shape everything from tourism and food access, to criminal justice, mental health and even romance. With powerful storytelling and sharp cultural insights, each episode explores how Black communities are reclaiming agency and rewriting the rules.

When Titans Clash: Why US' Allies are De-Risking from America

Format: 1 x 47 (all series: 17 x 47)
Broadcaster: CNA

The war in Iran, tariffs, instability in Venezuela and threats against Greenland are prompting US allies

to rethink their ties with Washington, amid growing global instability and shifting security priorities. As Canada, the UK, Germany, India and South Korea strengthen links with Beijing, what does it mean for US influence and their superpower rivalry with China in a rapidly changing world order?

When Titans Clash: The Race for Rare Earths

Format: 1 x 47 (all series: 17 x 47)
Broadcaster: CNA

Rare earths are critical elements, essential for everything from smartphones to missiles, and China controls most of them. As export restrictions loom, the USA and other rival powers are racing against the clock to build new supply chains before China's dominance reshapes the global balance.

When Titans Clash: Is Military Strength the New Path to Peace?

Format: 1 x 47 (all series: 17 x 47)
Broadcaster: CNA

80 years after the end of World War II, East Asia is standing at a crossroads. China is expanding its military reach, Taiwan is bracing for conflict and Japan is rearming. As old rivalries resurface and alliances shift, the region must navigate a dangerous balance between deterrence and diplomacy.

The Gen Z Revolutionaries

Format: 1 x 47
Broadcaster: CNA

2025 was one of Asia's most turbulent years, with governments collapsing across the region. At the heart of these crises was Gen Z. Facing climate anxiety and economic uncertainty, young activists in Nepal, Bangladesh, Indonesia and the Philippines are harnessing technology and its online networks to challenge the status quo and push for change.

Bones of Contention: Inside the Dinosaur Skeleton Trade

Format: 2 x 47
Broadcaster: CNA

Dinosaur fossil sales are booming, with a Stegosaurus skeleton recently fetching a record \$40 million. With rare access, dig deep into this murky international trade. We go inside an auction at Sotheby's, meet fossil hunters, dealers and buyers, and join archaeologists repatriating stolen bones.

China After Dark

Format: 3 x 47
Broadcaster: CNA

China's night-time economy is booming, with more than 60% of urban spending taking place after dark. In this series, we explore how a new generation is

redefining and reclaiming the night. Across three major cities, we learn about the midnight innovations sweeping across the nation, from 24/7 microdrama production in entertainment hub Changsha, to world-record drone swarms in futuristic tech capital Shenzhen and E-Sport hotels in trendy Chengdu.

Why Do Bad People Get Promoted?

Format: 1 x 59

Management was once a coveted career step. Now nobody wants the job and the wrong people keep getting it. From the Michelin factories in France to corporate HQs in Bergen, this documentary follows leaders, researchers and teams asking how to make management desirable, sustainable and meaningful again for a new generation of workers worldwide.

Anything for Fame

Format: 1 x 50 / 1 x 85

Broadcaster: Paramount+

In the ruthless “attention economy” of the Internet, young influencers gamble everything for fame and fortune. A startling and timely study of contemporary celebrity, *Anything for Fame* ventures into the virtual Wild West to profile an ambitious and reckless new breed of content creator, where nothing is off the table in the pursuit of notoriety.

Good Death Innovators: AI Beyond the Grave

Format: 2 x 47

Broadcaster: CNA

As funeral rites vanish across South East Asia, a new market is emerging: grief tech. Pioneers blur the lines between memory and reality to grant families a final conversation through avatars and living funerals. Is this a therapeutic cushion for trauma or is it trapping the bereaved in a digital delusion?

Raising Expectations: The Truth About AI

Format: 4 x 47

Broadcaster: CNA

Tech expert Aaron Maniam is on a mission to uncover the truth behind the promises of AI. With leading global voices, he explores some of the most important questions of our age: could AI narrow inequality? Will AI save or sabotage the planet? Who is accountable when machines are making the decisions?

Shermin's Manga Mayhem

Format: 1 x 47

Broadcaster: CNA

After legendary manga artist Kentaro Miura’s untimely passing, his unfinished masterpiece, *Berserk*, is set to be finally completed by his friend Kouji Mouri. Now, devoted fan and anime writer, Shermin, is embarking on a captivating and unpredictable journey across Japan to uncover Miura’s legacy and reveal her visionary idol’s profound impact on manga.

The Spanish Kiss: Football's Sexism Problem

Format: 1 x 48

Broadcaster: YLE

In August 2023, Luis Rubiales, then president of the Spanish Football Federation, forcibly kissed Jenni Hermoso in front of millions, after she won the Women’s Football World Cup. Spain’s own #MeToo ensued, as protests erupted and thousands of women shared their own stories of sexual violence.

Good Death Innovators: AI Beyond the Grave

The Hadron Collider: In Search of the Peace Particle

Format: 1 x 59 / 1 x 90
Broadcaster: BBC, S4C, ARTE

Born out of the ashes of Hiroshima, scientists vowed never again to weaponize knowledge, banding

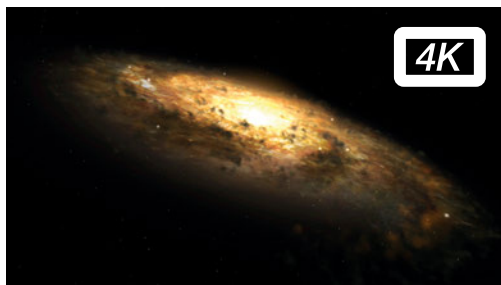

together to create CERN. For 70 years, this beacon of hope has united researchers from warring nations to explore the universe's smallest particles. Through rare access to the Large Hadron Collider, Nobel Prize winners and rare archive, the film celebrates the vital power of science and its role in peace today.

The Future with Hannah Fry, Series 2

Format: 6 x 24 (all series: 12 x 24)
Broadcaster: Bloomberg

Professor Hannah Fry explores the technology reshaping our world. From the rise of superintelligent AI decoding animal language, to developments in quantum computing and tech tackling disease and water scarcity, each episode explores innovations with the power to redefine humanity, for better or worse.

Voices of the Universe

Format: 2 x 52 (4K)

18 Nobel Prize winners come together for the first time to tell the universe's greatest story: how matter gave rise to life; and life to thought. Combining cutting-edge CGI and exclusive interviews with some of astrophysics' greatest minds, this mini-series tackles humanity's most fundamental questions: what is the universe made of? Where does life come from? How did it all begin?

Our Quantum Future

Format: 1 x 52 / 1 x 71 (4K)

A technological revolution 100 years in the making is about to transform society. Quantum computing moves beyond binary processing to model molecules, human biology and encryption systems in remarkable detail. Featuring Microsoft, Google and Nobel Prize-winning scientists, uncover a world of breakthroughs and brinkmanship, where ethics and ambition collide, and our future hangs in the balance.

Dark Skies: The Truth About Light Pollution

Format: 1 x 44 (4K)
Broadcaster: CBC

Follow two astronomers as they confront light pollution and join the dark-sky movement to establish Central Canada's first Dark Sky Preserve. Alongside expert scientists, witness the wonders of the cosmos and the ongoing fight to protect our precious night sky for stargazers, now and forever.

Curb Your Carbon

Format: 1 x 52 (4K)
Broadcaster: CBC

Narrated by an A-list Hollywood actor, this film reveals ten simple and effective ways we can all personally fight climate change, from wasting less

food to eating less meat. Climate facts are brought to life with fun animations, while our celebrity narrator receives help from racecar drivers, tree-planting moms and a bug-eating rugby team. *Curb Your Carbon* not only makes you chuckle, it also provides a blueprint for combating climate change.

Planet Shapers

Format: 10 x 22
Broadcaster: Channel 10

Spanning waste, energy, food, water and technology, this inspiring series follows innovative people working to create a more sustainable future. From recycling car tyres and plastic packaging, to protecting the Great Barrier Reef, each episode offers inside access to globally relevant stories of progress, invention, problem-solving and hope.

Plastic Tsunami: Voices of the Pacific

Format: 1 x 60
Broadcaster: SBS

In the Pacific Ocean, plastic waste carried by global currents is washing ashore and devastating marine life. Those who have contributed least to the crisis are now facing its consequences. This film follows communities on a mission from the Pacific to the UN, to save their islands from a plastic tsunami.

Tides of Time with Ben Fogle

Format: 3 x 47
Broadcaster: CNA

Narrated by BAFTA-nominated presenter Ben Fogle, this unique series charts the extraordinary king tides, which surge across Asia's coastlines each year. From Bangladesh's Sundarbans wetlands and China's Silver Dragon tidal bore, to South Korea's Getbol mudflats, these dramatic tides push people to the limits of adaptation and survival.

The Typhoon Detectives

Format: 1 x 47
Broadcaster: CNA

Notoriously difficult to predict, super typhoons are becoming more and more deadly. But against all odds, brave 'Typhoon Detectives' are harnessing cutting-edge tools and military technology to dive into the eye of the storm, risking their lives to track and forecast these mega storms across Asia and save thousands, if not millions, of lives.

The Cancer Killers

Format: 2 x 60
Broadcaster: BBC, SBS

Two scientists on the brink of uncovering a lifesaving cancer treatment discover what it takes to bring a new biotech breakthrough to market: \$1 billion. Filmed over 15 years, follow the determination of the two - who believe they can cure cancer - as they face up to their limited funds. Will they succeed? Do our systems for medical innovation still work?

The Nuclear Option

Format: 2 x 47
Broadcaster: CNA

In the global quest to harness clean energy, trade-offs need to be considered. From early experiments under the Manhattan Project, to Finland and China's recent nuclear strategies and post-Fukushima sentiments in Japan, this series explores how countries are turning to nuclear energy as an increasingly vital part of a cleaner future.

Who's Driving Now? The Future of Transport

Format: 2 x 47
Broadcaster: CNA

Self-driving cars will be on many of our roads soon. But how do they actually work? And are they the future of transport? Two car enthusiasts head to China - the world's fastest growing Autonomous Vehicle market - to learn about this pioneering technology and try out both driverless cars and helicopters.

Innovation Nation, Series 19 & 20

Format: 26 x 22 (all series: 260 x 22)
Broadcaster: CBS

In this Emmy Award-winning series, Mo Rocca and his team explore the innovations of the future. From self-driving cars and shark-repelling bracelets, to glasses for colour blindness and shoe lights for night running, discover the world's most exciting new inventions in this family-friendly series.

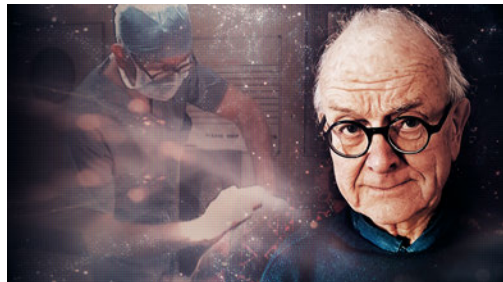

The Battle to Breathe

Format: 1 x 52
Broadcaster: PBS NOVA

Determined families, visionary scientists and patients themselves have turned cystic fibrosis from a childhood death sentence into one of modern

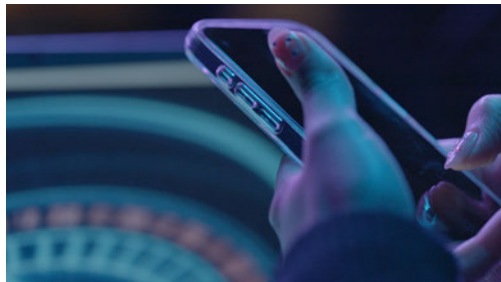

medicine's greatest breakthroughs, culminating in the life-changing 2019 drug Trikafta. Trace this journey from discovery in the 1930s to now, blending personal stories with science. But from the US to Egypt, who gets access to this costly miracle? And how do you imagine a future you once thought impossible?

Confessions of a Brain Surgeon

Format: 1 x 52
Broadcaster: BBC

World-renowned brain surgeon Henry Marsh reflects on a 40-year career shaped by life-and-death decision-making in the operating room, as he faces his own life-threatening diagnosis. Known for his pioneering surgical technique, the awake craniotomy, he now confronts the impact his work has had on his patients, their families and his own life.

Hooked: The Science of Addiction

Format: 3 x 52
Broadcaster: RTÉ

From phones and alcohol, to gambling and drugs, our brains are being hijacked. Dive deep into the science of addiction and recovery, with former heroin addict and neuroscientist Dr Brian Pennie. In this series, Pennie reveals how he turned his life around and uncovers how modern addictions are rewiring our brains. So, what can we do to break free?

The Skinny Jab Revolution

Format: 2 x 52
Broadcaster: RTÉ

This taboo-busting series investigates the rise in popularity of controversial GLP-1 weight loss medications such as Ozempic, Wegovy and Mounjaro. We learn why we still need to address the root cause of obesity alongside these "wonder drugs" and ask the question on everyone's lips: are these drugs just another quick fix in our toxic diet culture?

A Comedian's Guide to Happiness

Format: 6 x 43
Broadcaster: YLE

Three female comedians – South Africa's Tumi Morake, India's Aditi Mittal and America's Liza Treyger – travel to Finland to investigate why Finns have been named the world's happiest people nine years running. Exploring schools, workplaces and the great outdoors, they ask: what is happiness anyway?

The Hand

Format: 1 x 50 (4K)
Broadcaster: YLE

After eight years without hands, Arja Ahtaanluoma becomes the first person in Finland to receive a hand transplant. This intimate documentary filmed over four years follows the emotional journey and medical triumphs behind this groundbreaking operation, asking what receiving another human's body part means for your life and identity.

I'm not Stupid, I'm Dyslexic

Format: 1 x 47
Broadcaster: CNA

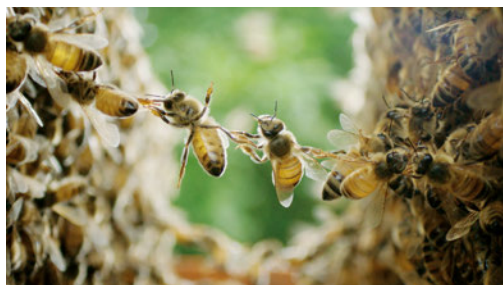

Around 10% of the world's population is dyslexic, yet the condition is still widely misunderstood. We follow Inch Chua, a singer-songwriter with dyslexia, on a mission to find out how the dyslexic brain works. With the help of medical experts, she discovers how this hidden disability can affect self-confidence and yet, sometimes, become a superpower.

Life of a Beast

Format: 1 x 50
Broadcaster: YLE

Come face to face with the bears, wolves and pups that inhabit Finland's frosty landscapes, where humans and beasts have coexisted for over a thousand years. But as more and more species become threatened, this urgent documentary brings us closer than ever to the wildest of Finland's animals; both terrifying and adorable, deadly yet endangered.

The Secret Life of Honey Bees

Format: 3 x 50
Broadcaster: EBS

Explore the hidden world of honeybees. From their role in NASA's space mission to their dramatic hive wars, discover the honeybee's emotions, intellect, drive to survive and symbiosis with humans. Guided by leading researchers, this visually stunning journey goes inside the hive, revealing the wonders of one of the planet's most vital species.

Traps and Ambushes

Format: 2 x 52 (4K)

Discover the most sophisticated traps and ingenious ambushes, evolved over billions of years, in this series showcasing nature's most original methods of hunting. From the strange hunting tactics of the African lion and archerfish, to the treacherous antlion sandpits, tongue lures of the alligator snapping turtle and the dazzle of the white owl, uncover how animals get creative to eat, or be eaten.

Scavengers: Africa's Cleanup Crew

Format: 1 x 52 (4K)

Typically portrayed as vicious and greedy predators, Africa's scavengers are vital to the health of the continent's ecosystems. Travelling across Africa, this striking documentary reveals how hyenas, vultures, jackals and other scavengers actually serve as an essential "cleanup crew", helping to maintain balance and support the circle of life.

The Message of the Lyrebird

Format: 1 x 60
Broadcaster: SBS

The lyrebird's song can famously mimic sounds, like that of a camera clicking or a chainsaw chopping down a tree. In this investigative eco-mystery, we follow a group of scientists, activists and sound recordists deep into Australia's forests, as they study its song and try to find out what the elusive lyrebird's message might mean for humanity.

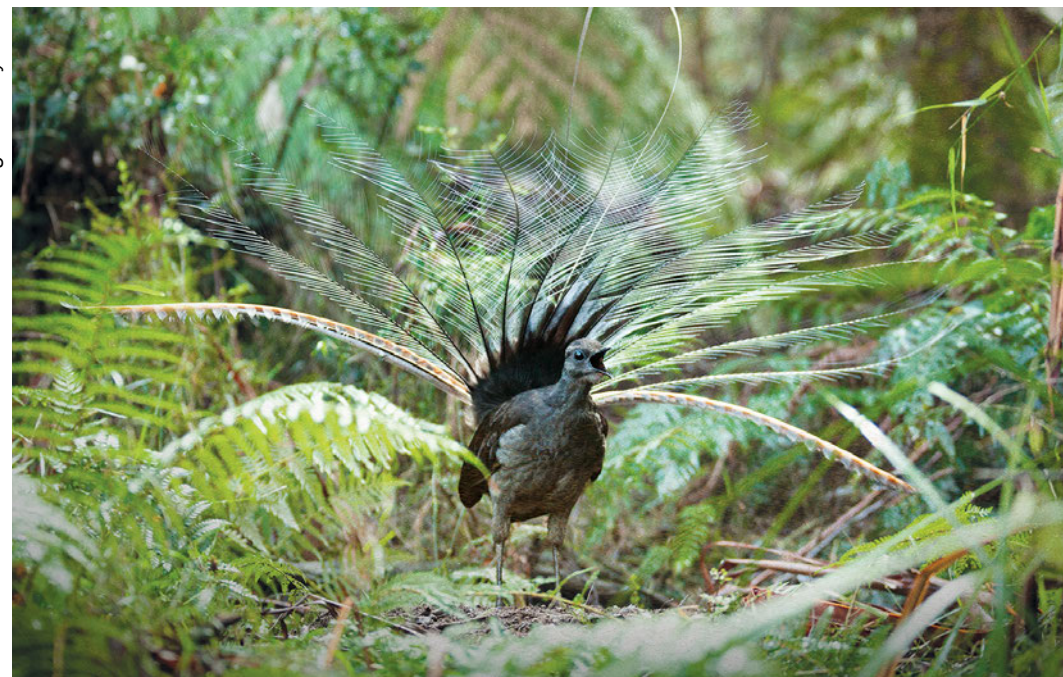

Wild Wetlands

Format: 1 x 50
Broadcaster: YLE

Plunge into the freezing waters of Finland's wild wetlands: a unique ecosystem that houses a world of predators and prey, with animals both big and small, feathered and furred. From brown bears and wolverines, to peregrine falcons and baby owls, this beautifully captured wildlife documentary tells the story of Finland's wetlands, through seasons.

The Message of the Lyrebird

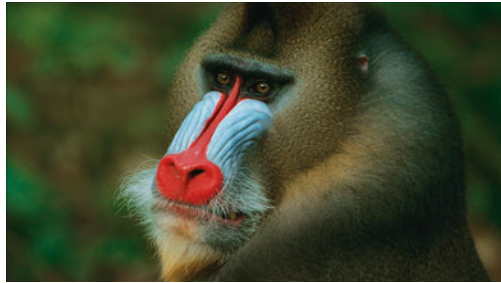

Hot Life Africa

Format: 5 x 52 (4K)

Survival in the African savannah is a daily challenge for all animals, but when temperatures soar and water disappears, hunting also means braving the elements. With each episode dedicated to one iconic African predator and its unique way of surviving the dry season, this series reveals how the lion, leopard, cheetah, wild dog and caracal thrive in the most extreme climate conditions.

Animal Instincts, Series 1 & 2

Format: 11 x 50
Broadcaster: NHK

The much-loved wildlife franchise reveals how strange and creative instincts shape animals' unique behavioural patterns. From cheetahs on the Serengeti to monkeys in Gabon, dingoes in Australia and moon bears in Japan, discover how animals fight, mate, thrive and survive in the world's most remote regions.

Wild Mind

Format: 2 x 52 (4K)

From tool-wielding apes to trap-building spiders, discover the shocking and complex intelligence on show in the natural world. Whether using water as bullets or rocks as hammers, uncover the surprising ways animals put their brains into action to navigate evolution's challenges as we answer the ultimate question: are animals operating on instinct or are they actually smarter than we think?

The Route to Cappyness

Format: 1 x 52 / 1 x 70

The world's largest rodent and the internet's goofiest star, the capybara has captivated hearts and minds. Trace its global journey from Brazil's wild wetlands to internet stardom. Meet a man with 300 capybara friends and Florida's celebrity capybaras, understand the capybara craze spreading from the UK to Japan and uncover the Indigenous reverence and deeper story behind the magnificent memes.

Wild World Diaries

Format: 13 x 50 (4K)
Broadcaster: SABC

Ecologist Dr François Odendaal returns to the places he has lived and worked. Join him as he adventures to some of the planet's most remote habitats, revealing their beauty and biodiversity. From deserts and rainforests to mountains and coral seas across the world, he explores how our most unique ecosystems have transformed over the decades.

Wild Family: Living with Jaguars

Format: 5 x 26 / 1 x 52 / 1 x 90 (4K)
Broadcaster: ZDF/Arte, Box Brazil

For over twenty years, Leandro Silveira has lived with his wife, son, 20 jaguars and other endangered animals in the Jaguar Institute he founded in the heart of the Brazilian savannah. In this heart-warming series, we follow this unique and wild family as they devote their lives to protecting a diverse range of exotic creatures, great and small.

The Keepers of the Pigs

Format: 1 x 70

Too often dismissed as a dopey pet, this film exhumes the grand history of the Guinea Pig, from ancient dinner tables to pampered suburban sofas. From the UK and Europe to Peru, follow a humorous, heartfelt journey to save mistreated guinea pigs, meet passionate rescuers and discover a complex history shaped by culture, companionship and changing human attitudes, across generations.

Scotland's Wildcats: Saving the Highland Tiger

Format: 2 x 60
Broadcaster: BBC

Once a symbol of Scotland's wild spirit, today fewer than 100 Scottish wildcats remain. This film follows the race to save Britain's only native wildcat species from the brink of extinction, as conservationists in the Highland Wildlife Park fight habitat loss, inter-species breeding and time itself.

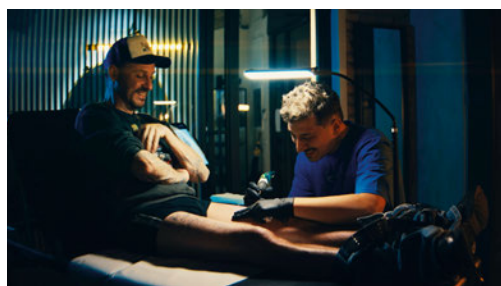

North Korea: A Year in the Wilderness

Format: 1 x 52
Broadcaster: KBS

This revealing documentary spends a year on the remote Kaema Plateau, North Korea's most isolated

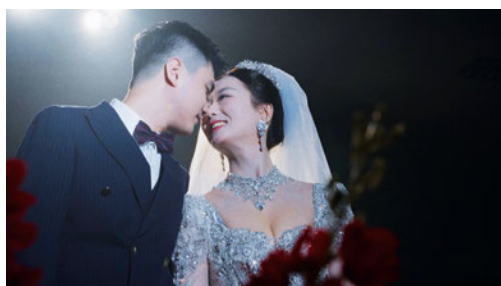

and rugged region. From shepherds, miners, loggers and kimchi-making farmers to the wildlife of the Korean Peninsula's highest mountain range, including flower deer and "crying" rabbits, it offers a rare glimpse into life and survival in the world's most secretive nation.

The Tattooist: A European Journey

Format: 6 x 45
Broadcaster: VRT

Step off the beaten track in this series and travel through six European capitals - London, Berlin, Vienna, Rome, Paris and Amsterdam - discovering each city through the eyes of its local tattoo artists. Blending travel, art and human stories, each episode offers a fresh and creative look at modern European culture, far from the usual tourist trails.

Chinese Matchmakers

Format: 2 x 47
Broadcaster: CNA

In a country of 1.4 billion, finding "the one" can feel like looking for a needle in a haystack. Against the context of record low marriage rates, this entertaining ob-doc series follows matchmakers from different parts of China, from big cities to small towns, as they counsel and coax young people into settling down and starting families.

Saving Britain's Country Houses with Penelope Keith

Format: 10 x 47
Broadcaster: Channel 4

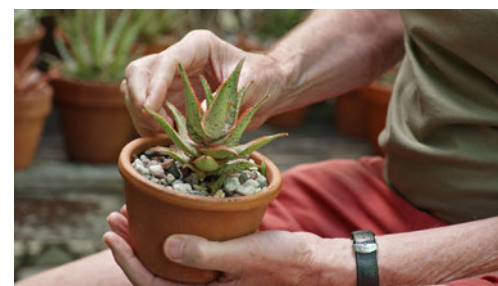

Dame Penelope Keith meets the owners of some of Britain's finest country houses, who are racing against time to keep them intact. From cafés and saunas to craft fairs and ghost tours, these owners are working tirelessly to save their homes and stave off the worst-case scenario: selling up.

Man of the Hour

Format: 8 x 44
Broadcaster: Discovery, HBO Max

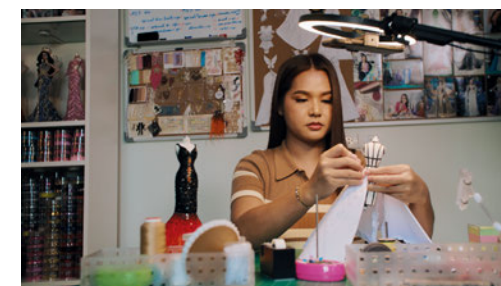

In the first ever series on independent watchmakers, timepiece fanatic Wei Koh travels the world to meet the artisans at the cutting edge of the craft. From household names like *Chopard* and *Louis Vuitton* to specialists like *F. P. Journe*, he uncovers the artistry and heritage behind the brands to discover what makes their creations so highly prized.

Visionary Gardeners, Series 3

Format: 5 x 23 (all series: 15 x 23)
Broadcaster: Vision TV

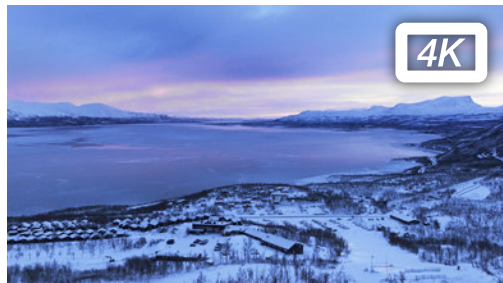

This beloved series returns to tour more of North America's most beautiful gardens. Meet the inspiring people behind these visionary gardens and discover the mind and method required to bring them to life. Along the way, explore the mindfulness benefits of nature and take in the incredible landscapes serving as muses to these genius horticulturalists.

My Hobby Obsession

Format: 6 x 30
Broadcaster: CNA

This inspiring series celebrates the extraordinary passions of ordinary people who take their hobbies to the next level. From divers uncovering lost histories in shipwrecks and makers building mini cities for their cats, to doll couturiers and artisans reviving ancient knife-making, we reveal the devotion and joy that drive these obsessions.

Aerial Arctic

Format: 3 x 50 (4K)

Discover Europe's northernmost region across three epic seasonal journeys, from polar night and fiery autumn, to midnight summer sun. Explore orca-filled bays, witness the Northern Lights and meet Indigenous reindeer herders, while learning about how some of the planet's harshest conditions have shaped unique ways of life in the Arctic Circle.

Everest From Above

Format: 1 x 52 (4K)

Journey through the Himalayas to Sagarmatha National Park, home to the tallest mountain on Earth. Bordering Nepal and Tibet, Mount Everest towers over a world of stunning natural wonders. From jagged peaks to deep valleys, forests to glacial lakes, travel through Sagarmatha, the 'Peak of Heaven', to witness fierce animals and resilient plants that survive in the shadow of the world's highest summit.

Great British Train Journeys From Above

From Scottish oysters to Welsh BBQs, luxury fudge to fish and chips, they tuck in to the treasures of local food, and make sure to get the best bargain!

Pow Wow Chow

New Stirrings: Singapore's Food Hawker Secrets

Format: 3 x 47
Broadcaster: CNA

Singapore's hawkers are among the world's best street food vendors, with several even earning

Michelin stars. In this inspiring series, we take a rare look at the people behind the plates, from beloved hard-working veterans and innovators constantly reinventing their dishes, to the new generation of hawkers using technology, including robots, to reshape this UNESCO-recognised culinary culture.

Hidden Gems: Taiwan's Culinary Treasures

Format: 6 x 25
Broadcaster: Taiwan+

Journey across Taiwan to explore the island's rich culinary variety. From grand banquets to traditional kiln cooking, we meet the cooks keeping the taste of Taiwan alive. Discover how its unique history and culture have shaped its cuisine, combining Indigenous traditions with flavours from across Asia.

Salt of the Earth

Format: 6 x 23
Broadcaster: CNA

One of humanity's oldest creations, salt has long shaped global trade, rituals and civilisation itself. We journey across two archipelagos - the Philippines and Japan - to meet the people upholding rare and vanishing salt-making traditions, producing everything from earthenware salt forged by fire, to seaweed-infused minerals once offered to emperors.

Lunch With Us

Format: 6 x 23
Broadcaster: CNA

A meal that offers a much-needed midday pause, lunch is a daily ritual. In this charming series blending food, travel and bite-sized insights, explore lunch cultures across Asia. Share a break with strangers seeking convenient, affordable and nourishing meals, meet the chefs behind them and gain insight into food, life and work across the region.

In Search of Heat

Format: 10 x 25
Broadcaster: CNA

Join private chef Kevin Lee on a flavour-packed journey through Southeast Asia, as he explores the world of chilli. Across Singapore, Thailand and Malaysia, Lee discovers new fiery dishes and fading traditions, learning how spice has shaped cultures for generations and creating his own unique recipes inspired by the chefs he befriends on the way.

Salt of the Earth

Circle of Death: Thailand's Deadliest Serial Killer

Format: 2 x 47
Broadcaster: CNA

They trusted her. That was the last mistake they ever made. "Aem Cyanide" sat across from her victims and watched them eat, drink and die. Then she took everything they had. Exclusive access to investigators and Aem's own defence lawyer reveals the gripping hunt to stop Thailand's deadliest killer.

Australian Crime Stories: The Investigators, Series 3

Format: 8 x 52 (all series: 20 x 52)
Broadcaster: Nine Network

Australia's best detectives return to the toughest cases of their careers to reveal what it takes to get the hardest criminals behind bars. With illustrative re-enactments, witness testimony and access to archive footage and police files, dig into each investigation, from crime scene to resolution.

Swindlers

Format: 3 x 50
Broadcaster: RTÉ

From con artists and white-collar criminals to institutional fraudsters, meet Ireland's most notorious swindlers. For years they left destruction in their wake, devastating not only individual lives, but entire communities. Each episode untangles a different case of deceit, dismantling the personality, methods and downfall of these notorious scammers.

Inside the Great ATM Heist

Format: 2 x 47
Broadcaster: CNA

July 2016. A coordinated attack is underway on one of Taiwan's largest banks. Malware has breached their security systems and masked robbers are withdrawing millions of dollars in cash. This series reveals how these Eastern European and Russian cybercriminals staged one of the largest cash heists ever and how the monumental case was finally solved.
